BIDDER NOTE NUMBER 2 (Distributed on 28 August 2012)

**Transfer of the Gautrain Rapid Rail System to the Gautrain Management Agency "GMA"  
including componentisation of the Gautrain Rapid Rail System assets**

**Notes in Response to Tender Enquiries:**

1. Request for an indication of the number of line items per Asset Category in the GMA Fixed Asset Register

The GMA does not have a Fixed Asset Register and therefore cannot provide an indication of the number of line items per asset category listed in the RFT document. The Fixed Asset Register will need to be created in full by the successful bidder.

The assets currently in existence are not bar coded.

Bidders are encouraged to ride the Gautrain system from Hatfield to Park Station and from Sandton to OR Tambo International Airport which will provide a better understanding of the assets involved per category.
