INTRODUCTION

Brands are developed to graphically express an organisation's purpose and business strategy.

To elevate a brand to a level of greater market acceptance, strict controls around brand execution are needed.

This Corporate Identity Manual is designed to manage brand application across a broad range of platforms in such a way that the organisation has one voice that it creates and one meaning in the mind of its target publics.

Brand Identity

The outward expression of a brand which includes its name, trademark, communication and visual appearance, is considered to be a brand's identity.

Brand identity reflects how the brand custodian wants publics to perceive the brand and by extension the branded company, organisation, product or service. The brand custodian seeks to bridge the gap between the brand image (a client's mental picture of a brand) and the brand identity.

The recognition and perception of a brand is generally influenced by its visual presentation and is achieved by consistently using particular visual elements to create distinction. These elements include specific typefaces or fonts, colours and graphic elements. At the core of every brand identity is a brand mark or logo.

Brand Management

Consistency is key to fostering a strong and recognisable brand identity. A strong and consistent brand not only distinguishes a business from its competitors, but cultivates trust, loyalty, and recognition amongst stakeholders and consumers. Inconsistent branding undermines brand

integrity, dilutes messaging, and erodes market share and future opportunities.

A strong, well managed brand will create recognition, differentiation, competitive preference, corporate value and respect. It manages extrinsic and intrinsic qualities through a collection of tangible and intangible brand contact points. A healthy brand contains a collection of elements, images and associations which together builds a strong brand image.

Within these brand guidelines are specific verbal and visual strategies. The following definitions and messages provide a reference frame for all 2D and 3D brand application. The visual elements provide tools – colours, fonts and layout templates – that you can apply. Together, these guidelines will help to plan your communication and ensure that your creative work strengthens the Gautrain and Gautrain Management Agency brand.

BRAND RATIONALE

Gold made Africa what it is today.

It was gold that was discovered in the dusty earth of the Transvaal more than 110 years ago, bringing men from far and wide, in pursuit of their dreams. The gold was plentiful, and from this single discovery, dreams built homes, and successful businesses, and a thriving city was born. And that city grew and flourished, and a metropolis grew and flourished around it, creating a province unlike any other:

Gauteng: Place of Gold.

Gold is distinctively African; and it represents Gauteng, its heritage, its soul, and its dreams of a golden future.

It is gold that we have used as the key element for this version of the “The Gold Train”.

Just like the discovery of gold more than a century ago, the Gautrain has brought jobs and new skills, connects people to economic opportunities, and facilitates economic growth. The Gautrain also helps to integrate communities and promotes social and economic inclusion, easing mobility for ordinary people. The Golden Train creates an opportunity to form and enhance relationships, and connects Gauteng to South Africa, Africa, and the world. The Gautrain and Gautrain Management Agency:

The simple colour usage combines “gold” and the established Gauteng Province emblem’s “blue”. The graphic is grounded as it appears to speed across the landscape. Combined with strong typography, this simple yet powerful logo is timeless. The powerful design depicts all that the Gautrain has to offer: speed, efficiency and futuristic world-class design.

VISUAL IDENTITY

LOGO - A logo is a collection of elements such as colour, design, picture, symbol and typeface.

The Gautrain logo consists of three variations each comprising key components:

Logo 1

1. Symbol
2. Workmark
3. Positioning statement/Slogan

Logo 2

1. Symbol
2. Workmark

Logo 3

1. Symbol
2. Workmark
3. Positioning statement/Slogan
4. Agency

Exclusion Zone

The Gautrain logo is most effective when surrounded by a clear area ensuring greater legibility, improved recognition and limited brand confusion in co-branding applications. A minimum area of unobstructed clear space, based on the height of the last letter "N" in the wordmark, must surround the logo in all situations (see examples below).

X = height of "N" in GAUTRAIN

LOGO SIZE VARIATIONS ACROSS DIFFERENT PAPER SIZES

The width of the logo is determined by the size of the print area. **It should never be smaller than one fourth of the smallest side of the printed area.** If the size is a decimal number round off to the closest whole number.

To ensure consistency across all paper sizes, please follow these suggestions:

- **A5-sized** items: 37mm logo in width (portrait or landscape)
- **A4-sized** items: 53mm logo in width (portrait or landscape)
- **A3-sized** items: 74mm logo in width (portrait or landscape)
- **DL-sized** items: 53mm (portrait) and 37mm (landscape)
- **DL-sized and other envelopes:** 53mm (landscape)

CO-BRANDING

CO-BRANDING IN RELATION TO PARTNER VENTURES

Co-branding is a brand management strategy whereby two or more brands are intentionally brought together and presented to stakeholders

and consumers to leverage the brands through the transfer of positive associations from one brand to another. Co-branding can take many forms such as

promotional partnerships, joint ventures, licensing agreements, sponsorships, and special events.

Gautrain and Gautrain Management Agency's co-branding partnerships and collaborations should never sacrifice the brand's unique identity.

To ensure this:

- Where the partnership agreement allows, visual and verbal elements that help reinforce Gautrain and Gautrain Management Agency's brand identity should be infused as part of the co-branding;
- The Gautrain brand elements (i.e. Logo, graphics, imagery, colours, style guide, typography) should always be applied according to the guidelines stated in this corporate identity manual.

Consistent brand identity application when co-branding will ensure that the Gautrain and the Gautrain Management Agency maintain a cohesive and recognisable image even when partnering with other parties.

CO-BRANDING IN RELATION TO PARTNER VENTURES

For events that the Gautrain and Gautrain Management Agency are supporting, visual and verbal elements that help reinforce Gautrain and Gautrain Management Agency's brand identity must be infused with the look and feel of the event:

Note

- If Gautrain and the Gautrain Management Agency are secondary partners, the prominent far right position will be given to the primary partner.
- The Gautrain and Gautrain Management Agency logo **will be on the left of the primary partner logo**. Alternatively, the Gautrain and Gautrain Management Agency will be accommodated through the brand elements (e.g. graphics, imagery, colours, style guide, typography).
- Usage of the Gautrain/Gautrain Management Agency Brandmark by partners is only allowed after negotiations and a contract signed to approve of this. Brandmark refers to the colour, shape and all elements that constitute the Gautrain/Gautrain Management Agency logo.

USAGE OF SOCIAL MEDIA ICONS IN RELATION TO EACH OTHER

There are instances where Social Media Icons (the Gautrain App, LinkedIn, Facebook, Instagram and X (formerly known as Twitter)) appear with the website address. The website address should be half the height of the Social Media Icons and the same distance "1/2 X" apart.

X = height of "N" in GAUTRAIN

Co-branding of Gautrain / Gautrain Management Agency Logo in relation to Social Media Icons

The Gautrain/Gautrain Management Agency logo should be placed on the far right bottom corner with the Social Media Icons to the left of the logo and the partner logo on the far left bottom corner.

IMAGERY

IMAGE ELEMENTS

The Gautrain Train, Bus and Midibus images may be used in advertising e.g. print media, television and outdoor media. No alterations of these images allowed nor superimposing of any logos or other design element onto these

image elements. Please contact the Brand Manager in order to obtain the hi-resolution images for use.

IMAGE ELEMENTS - INCORRECT USE

Do not put copy or design elements on the train, bus or midibus.

IMAGE STYLE GUIDE

- The images associated with the Gautrain and Gautrain Management Agency should always be bright and vibrant, to look modern.
- The focus of the images should always be on the Gautrain brand when it is a feature in the photography.
- Whenever people are used in images, written permission from passengers/models is needed before taking photographs.

IMAGE STYLE GUIDE

Note

- When cropping, under no circumstances can the nose of the Gautrain Engine/Front be cropped off.
- Under no circumstances should people with branded clothing, other than that of Gautrain, be shown in images.

Focus on the images

The Gautrain brand should be the main focus. Use central cropping to ensure brand image and quality.

VERTICAL ADVERTORIAL

October is Transport Month. This month is used to showcase transport infrastructure and services, and create awareness of the economic benefits of the sector.

The Gautrain, as a major public transport investment, has proven that when transportation is working well, it can play a key role in supporting a community to thrive. Gautrain stations have become focal points in communities; providing a convenient, efficient, comfortable, and safe public transport service. The world-class rapid rail link, complemented by a bus and midibus feeder and distribution service, connects people to places of employment, educational institutions, leisure and entertainment destinations, and even other parts of South Africa and the world through its O.R. Tambo International Airport Station link.

The Gautrain has undoubtedly provided a better quality of life for Gauteng's residents and made communities more livable: reducing road congestion, harmful carbon dioxide emissions, noise pollution, and road accidents, fatalities and injuries. The transit system has also significantly decreased travel time by moving a large number of people quickly and reliably, and connected the scattered urban centres of Johannesburg, Pretoria, and Ekurhuleni.

Due to increased connectivity provided by the Gautrain, the areas surrounding the Gautrain stations have developed

and are continuing to develop into high density mixed-use areas, changing the urban landscape notably. Property values continue to rise in areas surrounding Gautrain stations and several new developments have been rolled out in their vicinity, including high rise office towers, hotel developments, residential apartment blocks, and various other forms of retail and commercial properties.

Communities where Gautrain stations are located and the surrounding areas are indeed benefitting through increased connectivity and economic activity.

All of these positive spin-offs already tell the story of how potential extensions to the Gauteng Rapid Rail Integrated Network could connect more people, more businesses, and more parts of the Gauteng province not currently being serviced.
